Mexican Constitutionalists Are on Record in Favor of a Military Government After Mexico City Is Taken and That No Elections Shall Be Held Until the Country Is Pacified.

Washington, July 9.—Border dispatches that the Constitutionalists will not accept the invitation of the mediators for informal peace conferences with representatives of General Huerta were partially confirmed here by persons in close touch with General Carranza.

That the Constitutionalists leaders were strongly opposed to the idea of peace conferences, although all of the generals have not been heard from, did not surprise those officials who have maintained that it would be virtually impossible to modify the plan of Guadalupe, the platform of the Constitutional movement.

This plan declares that a military government shall be set up after Mexico City is conquered and that no elections shall be held until the country is pacified by military rule.

The present purpose of the Constitutionalists, it is understood, is to follow that program to the letter, calling a conference of generals when the conquest of Mexico City is accomplished.

A new "first chief" may be appointed then. It is expected at this stage the Carranza-Villa split will come to a head, the disaffection probably leading to an effort to have Carranza superseded. Reports from Torreon that the differences between the two chiefs had been composed were verified by agents of both, but there was an undertone of comment indicating that it was only a temporary truce.

The break has had a disorganizing effect politically upon the Constitutionalists and evidences of it are manifest in Mexican circles here. Though none will be quoted there in constant communication with General Villa did not hesitate to denounce the accredited agents of General Carranza.

ZAPATA OFFERS SERVICES

Brother of Revolutionary Leader on Way to Saltillo.

Los Angeles, July 9.—Representing his brother, Emiliano Zapata, General Efraim Zapata passed through here on his way to Saltillo, where he will offer to General Carranza the support of the Zapatistas in return for a guarantee that all the haciendas now in the hands of the Zapatistas will be distributed solely among them. The general left Emiliano Zapata two weeks ago, he said. Emiliano Zapata, with 20,000 followers, was then within fifteen miles of Mexico City, but lacked sufficient artillery and ammunition sufficient for a successful assault on Huerta in his capital.

ACCUSES THE UNITED STATES

Foreign Minister Declares It Has Aided the Rebels.

Mexico City, July 9.—The differences between the United States and Mexico were the subject of a report read before the senate and chamber of deputies by the acting foreign minister, who declared that the trouble between the two countries was bound up with the internal conflict in Mexico, "owing to the assistance and support given by the United States to the revolutionists."

The report expressed readiness on the part of the Huerta government to negotiate with the Constitutionalists for the establishment of a new provisional administration.

MANY UNION MEN WALK OUT

Protest Against Establishment of Open Shop Principle.

Stockton, Cal., July 9.—Union men walked out in a lumber yard, two planing mills, a barber shop and several other places of employment here as the result of establishment of the open shop principle at a meeting of the Merchants, Manufacturers and Employers' association. Although the open shop rule went into effect there was no demonstration on the part of the union men and some labor leaders advised the men not to quit until some more vital union principle than the display of union cards or signs had been violated.

MILES CITY STORE ROBBED

Professionals Get Away With Diamond Rings Valued at \$2,500.

Miles City, Mont., July 9.—Diamond rings worth \$2,500 were taken from the show window of the Smith jewelry store in this city in the middle of the afternoon with the streets full of people. The store was closed for a few hours in the afternoon and the burglars made their entrance through a rear door. Out of town experts are blamed for the robbery as the methods employed were all the earmarks of professionals.

PRESIDENT POINCARE.

French Police Discover Plot to Kill Executive.

PLOT TO SLAY POINCARE

French Police Find Bombs on Two Russian Suspects.

Paris, July 9.—The bombs found in the possession of two Russians who were arrested at Beaumont-sur-Oise on Monday were intended for President Poincaré, in the opinion of the police, who attached great importance to the affair.

Four persons whose names were on a list found on the Russians have been arrested, among them Prince Alexander Abachidze, a member of a wealthy and aristocratic family. Most of the other names on the list were those of dangerous anarchists, whom the police have had under observation for some time.

An analysis of the bombs shows that they were of an exceptionally deadly character. They were made by an expert in chemistry and mechanics.

FIFTEEN PERSONS HURT IN COLLISION

Interurban Electric Car and Freight Train Collide.

Faribault, Minn., July 9.—Fifteen persons were injured, several probably fatally, when a Dan Patch interurban passenger car collided with a steam freight train in the northern limits of Faribault.

The interurban contained about forty-five passengers, all of whom were hurled to the floor and sides of the car by the terrific impact. The electric car was telescoped, nearly every seat being torn from the floor and tossed in all directions.

John McNaught, superintendent of the Dan Patch electric line, wired the railroad and warehouse commission asking that an investigation of the collision be started.

Officials of the road blame the freight train crew, according to a statement issued by R. E. Weyer, secretary to President M. W. Savage of the line.

WOMAN'S WIT SAVES TRAIN

Acts Promptly When Telegraph Poles Fall on Railroad.

Alton, Ill., July 9.—Prompt action by Mrs. George Mitchell, wife of a farmer near here, probably prevented a wreck of a Chicago-St. Louis passenger train on the Chicago and Alton railroad.

During an electrical storm Mrs. Mitchell saw twelve telegraph poles struck by lightning and fall across the track. An express train was nearly due. The station agent at Godfrey, Ill., was warned in time to stop the train.

NEGRO REVEALS HIS LOOT

Leads Officers to Sinkhole After Confessing to Stealing.

Bay Springs, Miss., July 9.—After a confession that he held up and robbed a lumber company's pay car at Stevenson, Miss., June 27, killing Paymaster Reese Fitzgerald and wounding two others, Mose Johnson, a negro, led officers to a sinkhole half a mile from the scene of the holdup, where the larger part of the \$2,300 stolen was concealed.

He also directed the officers to a hollow log, where was found the shotgun with which he shot the three men. Johnson says he committed the crime single handed.

LACK OF QUORUM PREVENTS ACTION.

Washington, July 9.—Lack of a quorum prevented a final vote in the house on the Rucker bill to amend and codify laws relating to publicity of campaign contributions. It will come up again next week and is expected to pass.

HOUSE MAY ELECT NEXT PRESIDENT

With Three Strong Parties No One May Get Majority.

ADVANTAGE FOR DEMOCRATS

With Sixteen Southern States Sure, It Is Only Necessary For Party to Carry Nine Doubtful Ones to Have Majority—Interesting Possibilities Arise as Fall Campaign Approaches.

By ARTHUR W. DUNN.

Washington, July 9.—[Special.]—Politicians have already begun to speculate upon the importance of carrying the house of representatives this fall in case of a three cornered fight in the presidential election of 1916. Should there be three tickets in the field, as in 1912, and these tickets should be anywhere near evenly balanced, none would secure a majority in the electoral college, and the choice of a president would devolve upon the house of representatives.

In that case the election would be by states, and each state delegation would cast one vote. Consequently it is important for some party to secure a majority of the states by delegations. It would not be surprising to see the election waged upon these lines.

DEMOCRATS HAVE AN ADVANTAGE.

Owing to the split in the Republican party the Democrats will have an advantage in securing state delegations. They will start with sixteen states from the solid south, in which they are sure to control the delegations. They will only be required to elect a majority of the members of congress in nine of the states in order to have the twenty-five, which would control the house if the election of a president should be thrown into that body. At this time the Democrats can easily count the nine states that they are sure to carry.

"Delightful Uncertainty."

During one of the factional discussions of the rules of the senate, Vice President Marshall said "it reminded him of a remark of a Kentucky lawyer who said that 'the crowning glory of the practice of the law was its delightful uncertainty.' Rulings have been made on both sides of this question," continued Mr. Marshall, "and the chair thinks he has ruled on both sides and decided both ways. The chair is not going to decide it again. Rather than have the Record disclose the fact that the chair has ruled on both sides he will submit it to the senate."

A Disturbing Question.

A question which seriously disturbs the Democrats while they are in control is that ever present problem of race. Although President Wilson was born south of the Potomac river and lived a long time in Georgia, he does not seem to have acquired the intense feeling of the average southern man on the race question. President Wilson insists upon appointing colored men to office, although he is opposed in this by nearly every southern senator.

In the house a number of bills have been introduced providing for the segregation of the races employed in the different departments. Congressman Park of Georgia has introduced a bill making it unlawful to appoint as commissioned or noncommissioned officers in the army or navy any persons of the colored race. Of course these bills have no show of passing, but they indicate the feelings of the southern men.

Bristow's Awful Suggestion.

Senator Simmons of North Carolina was trying to call up the river and harbor bill in the senate when Senator Bristow of Kansas objected. "There are bills on the calendar of far more importance than the river and harbor bill," declared the Kansas senator. "What bills?" asked Senator Simmons with amazement while other senators were almost aghast at the awful suggestion that any ordinary bills could be deemed more important than that which appropriated large sums for rivers and harbors in so many states and districts.

Navy Is National.

It would be natural to suppose that only congressmen living in states bordering on the sea would be interested in the navy, but such is far from the truth, particularly in the house. For the past sixteen years the chairman of the naval committee in the house has been from an inland state. Foss of Illinois served a greater portion of the time and now Padgett of Tennessee is chairman of that committee. It is also a fact that men from the interior states take a great deal of interest in the navy.

"Grape Juice Period."

"History will denominate this as the grape juice period in politics," remarked a man at the capitol who had just read about grape juice going aboard the battleships to take the place of booze which Secretary Daniels had proscribed. He also alluded to the prominence which Secretary Bryan had given to this nonalcoholic beverage. At the same time there is a rumor that the secretary of state has become so sensitive on the subject of grape juice that it no longer appears at dinners and other social functions.

Greater London.

Greater London is composed of thirty-eight city boroughs and twenty-nine suburban towns.

FOR EQUAL SUFFRAGE.

Duchess of Marlborough Favors Votes for Women.

DUCHESS IS FOR SUFFRAGE

Her Grace of Marlborough Urges Votes for Women.

Newport, R. I., July 9.—Votes for women were urged by the Duchess of Marlborough in an address before the Political Equality association. The meeting was held at Marblehead, the Newport residence of the duchess's mother, Mrs. Oliver P. H. Belmont, president of the association, and was attended by many women prominent in the movement for suffrage extension.

The greatest part of the duchess's address was devoted to a description of two British reforms in which she is interested, the homes of prisoners' wives and children and the hotels for women.

COLORADO SOLON LEAVES HIS PARTY

Congressman Kindel Now Poses as an Independent.

Washington, July 9.—Representative George J. Kindel of Colorado, a Democratic member of the house, has left the Democratic party and henceforth will be known as an independent.

Mr. Kindel told his friends that he regards the administration as incompetent and that he no longer is able to affiliate with the party.

Not only that, but Mr. Kindel will assist Senator Joseph W. Bristow of Kansas, Republican candidate for reelection to the senate, and will aid other Republican candidates in so far as they espouse his views on the transportation problem and the Mexican question.

"President Wilson may know all about the syntax of Greek verbs," Mr. Kindel said, "but he does not know anything about the presidential questions that are confronting the American people."

CARRIES MESSAGE IN AIR FROM SHIP.

Washington, July 8.—Dispatch-carrying by aeroplane for the first time in the history of navy aeronautics was reported from the battleship Mississippi.

When the Mississippi was twenty-five miles off the Virginia capes, heading for Hampton Roads, several days ago, Lieutenant Bellinger and Ensign Stolz went into the air with their machine, rose to a height of 4,000 feet and descended upon the telegraph office at Fortress Monroe with an important message for the navy department.

AUTO JUMPS INTO RIVER

Woman Drowned When Machine Leaps Over Ferry Boat.

Kennett, Cal., July 9.—Mrs. Elizabeth Webber of Berkeley, Cal., was drowned at the end of a wild ride down a mountainside in an uncontrollable automobile which shot from the bank of the Sacramento river, leaped clear across a flat ferryboat and plunged into the river.

With Mrs. Webber in the automobile were Z. K. Horton and his mother, Mrs. C. E. Horton. The Hortons swam ashore.

Child Angler Drowned.

Faribault, Minn., July 9.—A six-year-old son of Mr. and Mrs. Thomas Jindra was drowned in Wheatland lake while fishing. He went to the lake alone.

FAILS TO ALTER LABOR CLAUSE

WIFE MURDERER GIVES UP

Surrenders to Relative After Attempting Suicide.

Crosby, Minn., July 9.—After a futile attempt to slash his throat with a razor Eli Vaillancourt, the Crosby restaurant proprietor who murdered his wife, surrendered to his brother-in-law after he had been pursued by a posse.

Vaillancourt was brought to Crosby where a large crowd gathered and threatened to lynch him. Members of the gang dispersed, however, and the city is quiet. The wound in Vaillancourt's throat was attended by physicians and it is said he will recover.

Vaillancourt attacked his wife with a butcher knife, nearly cutting off her head. He then took to the woods. Jealousy is said to have caused the tragedy.

BROKEN CAR FOILS RESCUE

Fenstrike Girl Sinks When Boys Are Near With Boat.

Bemidji, Minn., July 9.—Flora M. Cox of Fenstrike stepped from a sandbar into a deep hole in Gull lake while bathing and was drowned. Her screams attracted two sons of Harry Strehman, who rowed toward her, but when they were almost near enough to grasp her an oar broke and baffled their attempt at rescue.

POISON TABLETS ARE FATAL

Captain of Junior Class of Culver Military Academy Dies.

Chicago, July 9.—Lee Wade of Cambridge, Mass., captain of the junior class at Culver Military academy, who was brought to Chicago on a special train Monday, suffering from poison, died at a hospital. It is said he mistook the poison tablets for medicine.

Senate Exempts Unions From Prosecution as Trusts.

CALLS LEGISLATION VICIOUS

Senator Sterling of South Dakota Moves to Strike Out the Exemption, but the Motion Is Laid on the Table by a Vote of 41 to 27, Only One Democrat Voting for It.

Washington, July 9.—All efforts in the senate to alter or eliminate the labor exemption clause of the sundry civil bill section providing funds for the enforcement of the anti-trust law were voted down.

Two roll calls put the senate on record in favor of the exemption clause which caused the veto of the last sundry civil bill by President Taft and which President Wilson, in a memorandum made when he signed the same measure, characterized as "unjustifiable in character and principle."

The clause provides that no part of the fund shall be spent in the prosecution "of any organization or individual for entering into any combination or agreement having in view the increasing of wages, shortening of hours or bettering the conditions of labor or for any act done in furtherance thereof, not in itself unlawful." Cooperative farmers' organizations also are exempted.

Senator Sterling of South Dakota proposed to strike out the exemption, characterizing it as "vicious class legislation."

The Sterling amendment was laid on the table by a vote of 41 to 27, only one Democrat, Senator Pomerene, voting for it. Republicans who voted to sustain the exemption were: Senators Brady, Clapp, Cummins, Jones, Kenyon and Norris. Senator Poinsett also voted for the exemption.

INSANE MAN SCATTERS FIRE

Ranchers in Western South Dakota District Terrorized.

Spearfish, S. D., July 9.—Residents of the northern section of Lawrence county are being terrorized by a fanatic who is running at large.

The fugitive is known as "Fast." For some time he had been employed at odd jobs on the ranches of the region. He was known to be domestic, but he was regarded as harmless. He has developed a mania for setting fire to buildings, following threats that he would "get even" with several ranchers whom he charged had not treated him right.

The first victim of the domestic man was Peter Christenson. The barn on the Christenson place was discovered to be in flames a short time after Fast was seen in the vicinity. After setting fire to the barn the fugitive headed for a nearby creek and took refuge in the heavy underbrush.

Officers and posses of citizens have since searched for him, but have been unable to locate him.

HAYES' OLD FARM IS SOLD

Ranch Once Owned by Former President Sells for Record Price.

Bismarck, N. D., July 9.—The highest price ever paid for farm land in Burleigh county was in the sale of the Hayes farm, located four miles north of Bismarck, when it was sold by Dan Cahill to Mr. Williams of Albion, Neb., for \$75 an acre. Mr. Cahill is well pleased with his investment, as he bought this land about ten years ago for \$10 an acre.

After Mr. Williams had looked over the farm he purchased he was shown the large alfalfa fields near Bismarck and stated that in his judgment land that would grow such alfalfa was certainly not high at \$75 an acre.

The farm was originally owned by President Rutherford B. Hayes, who operated it before his death. Two presidents of the United States have owned farms and ranches in North Dakota. President Roosevelt operated a stock ranch near Medora several years.

CONFESSES KILLING CHILD

After Attacking Girl Chicagoan Took Body Into Her Father's Store.

Chicago, July 9.—Boswell C. F. Smith, a salesman, confessed to the murder of four-year-old Hazel Weinstein.

Smith, unaware that some of his actions in the alley back of the shop kept by the girl's parents had been observed, carried the body into the store, explaining that he had found it. "See, this was in her mouth," he said, exhibiting a gag on which the child choked to death. At this point the witnesses appeared and Smith was arrested.

Boy Impaled on Stick.

La Crosse, Wis., July 9.—A stick at most a foot long was driven through the mouth of George Castle, aged six, and came out the back of his neck when he fell from a bicycle. The boy was fatally injured, attending physicians say.

For the past sixteen years the chairman of the naval committee in the house has been from an inland state. Foss of Illinois served a greater portion of the time and now Padgett of Tennessee is chairman of that committee. It is also a fact that men from the interior states take a great deal of interest in the navy.

"Grape Juice Period."

"History will denigrate this as the grape juice period in politics," remarked a man at the capitol who had just read about grape juice going aboard the battleships to take the place of booze which Secretary Daniels had proscribed. He also alluded to the prominence which Secretary Bryan had given to this nonalcoholic beverage. At the same time there is a rumor that the secretary of state has become so sensitive on the subject of grape juice that it no longer appears at dinners and other social functions.

FOR EQUAL SUFFRAGE.

Duchess of Marlborough Favors Votes for Women.

DUCHESS IS FOR SUFFRAGE

Her Grace of Marlborough Urges Votes for Women.

Newport, R. I., July 9.—Votes for women were urged by the Duchess of Marlborough in an address before the Political Equality association. The meeting was held at Marlborough, the Newport residence of the duchess' mother, Mrs. Oliver P. H. Belmont, president of the association, and was attended by many women prominent in the movement for suffrage extension.

The greatest part of the duchess' address was devoted to a description of two British reforms in which she is interested, the homes of prisoners' wives and children and the hotels for women.

COLORADO SOLON
LEAVES HIS PARTY

Congressman Kindel Now Poses as an Independent.

Washington, July 9.—Representative George J. Kindel of Colorado, a Democratic member of the house, has left the Democratic party and henceforth will be known as an independent.

Mr. Kindel told his friends that he regards the administration as incompetent and that he no longer is able to affiliate with the party.

Not only that, but Mr. Kindel will assist Senator Joseph W. Bristow of Kansas, Republican candidate for reelection to the senate, and will aid other Republican candidates in so far as they espouse his views on the transportation problem and the Mexican question.

"President Wilson may know all about the syntax of Greek verbs," Mr. Kindel said, "but he does not know anything about the presidential questions that are confronting the American people."

CARRIES MESSAGE

IN AIR FROM SHIP.

Washington, July 8.—Dispatch-carrying by aeroplane for the first time in the history of navy aeronautics was reported from the battleship Mississippi.

When the Mississippi was twenty-five miles off the Virginia coast, heading for Hampton Roads, several days ago, Lieutenant Belling and Ensign Stolz went into the air with their machine, rose to a height of 4,000 feet and descended upon the battleship.

An important message for the navy department.

AUTO JUMPS INTO RIVER

Woman Drowned When Machine Leaps Over Ferry Boat.

Kenneth, Cal., July 9.—Mrs. Elizabeth Webber of Berkeley, Cal., was drowned at the end of a wild ride down a mountainside in an uncontrollable automobile which shot from the bank of the Sacramento river, leaped clear across a flat ferryboat and plunged into the river.

With Mrs. Webber in the automobile were Z. K. Horton and his mother, Mrs. C. E. Horton. The Hortons swam ashore.

Child Angler Drowned.

Faribault, Minn., July 9.—A six-year-old son of Mr. and Mrs. Thomas Jindra was drowned in Wheatland lake while fishing. He went to the lake alone.

FAILS TO ALTER
LABOR CLAUSEWIFE MURDERER GIVES UP
Surrenders to Relative After Attempting Suicide.

Crosby, Minn., July 9.—After a futile attempt to slash his throat with a razor Eli Vaillancourt, the Crosby restaurant proprietor who murdered his wife, surrendered to his brother-in-law after he had been pursued by a posse.

Vaillancourt was brought to Crosby where a large crowd gathered and threatened to lynch him. Members of the gang dispersed, however, and the city is quiet. The wound in Vaillancourt's throat was attended by physicians and it is said he will recover.

Vaillancourt attacked his wife with a butcher knife, nearly cutting off her head. He then took to the woods. Jealousy is said to have caused the tragedy.

BROKEN OAR FOILS RESCUE

Fenstrikie Girl Sinks When Boys Are Near With Boat.

Bemidji, Minn., July 9.—Flora M. Cox of Fenstrikie stepped from a sandbar into a deep hole in Gull lake while bathing and was drowned. Her screams attracted two sons of Harry Strehman, who rowed toward her, but when they were almost near enough to grasp her an oar broke and baffled their attempt at rescue.

POISON TABLETS ARE FATAL

Captain of Junior Class of Culver Military Academy Dies.

Chicago, July 9.—Lee Wade of Cambridge, Mass., captain of the junior class at Culver Military academy, who was brought to Chicago on a special train Monday, suffering from poison, died at a hospital. It is said he mistook the poison tablets for medicine.

Senate Exempts Unions From Prosecution as Trusts.

CALLS LEGISLATION VICIOUS

Senator Sterling of South Dakota Moves to Strike Out the Exemption, but the Motion Is Laid on the Table by a Vote of 41 to 27, Only One Democrat Voting for It.

Washington, July 9.—All efforts in the senate to alter or eliminate the labor exemption clause of the sundry civil bill section providing funds for the enforcement of the anti-trust law were voted down.

Two roll calls put the senate on record in favor of the exemption clause which caused the veto of the last sundry civil bill by President Taft and which President Wilson, in a memorandum made when he signed the same measure, characterized as "unjustifiable in character and principle."

The clause provides that no part of the fund shall be spent in the prosecution "of any organization or individual for entering into any combination or agreement having in view the increasing of wages, shortening of hours or bettering the conditions of labor or for any act done in furtherance thereof, not in itself unlawful." Co-operative farmers' organizations also are exempted.

Senator Sterling of South Dakota, proposed to strike out the exemption, characterizing it as "vicious class legislation."

The Sterling amendment was laid on the table by a vote of 41 to 27, only one Democrat, Senator Pomeroy, voting for it. Republicans who voted to sustain the exemption were: Senators Brady, Clapp, Cummins, Jones, Kenyon and Norris. Senator Pomeroy also voted for the exemption.

INSANE MAN SCATTERS FIRE

Ranchers in Western South Dakota District Terrorized.

Spearfish, S. D., July 9.—Residents of the northern section of Lawrence county are being terrorized by a lunatic who is running at large.

The fugitive is known as "Fast." For some time he had been employed at odd jobs on the ranches of the region. He was known to be demented, but he was regarded as harmless. He has developed a mania for setting fire to buildings, following threats that he would "get even" with several ranchers whom he charged had not treated him right.

The first victim of the demented man was Peter Christenson. The barn on the Christenson place was discovered to be in flames a short time after Fast was seen in the vicinity. After setting fire to the barn the fugitive headed for a nearby creek and took refuge in the heavy underbrush.

Officers and posses of citizens have since searched for him, but have been unable to locate him.

HAYES' OLD FARM IS SOLD

Ranch Once Owned by Former President Sells for Record Price.

Bismarck, N. D., July 9.—The highest price ever paid for farm land in Burleigh county was in the sale of the Hayes farm, located four miles north of Bismarck, when it was sold by Dan Cahill to Mr. Williams of Albin, Neb., for \$75 an acre. Mr. Cahill is well pleased with his investment, as he bought this land about ten years ago for \$10 an acre.

After Mr. Williams had looked over the farm he purchased he was shown the large alfalfa fields near Bismarck and stated that in his judgment land that would grow such alfalfa was certainly not high at \$75 an acre.

The farm was originally owned by President Rutherford B. Hayes, who operated it before his death. Two presidents of the United States have owned farms and ranches in North Dakota. President Roosevelt operated a stock ranch near Medora several years.

CONFESSES KILLING CHILD

After Attacking Girl Chicagoan Took Body Into Her Father's Store.

Chicago, July 9.—Boswell C. E. Smith, a salesman, confessed to the murder of four-year-old Hazel Weinstein.

Smith, unaware that some of his actions in the alley back of the shop kept by the girl's parents had been observed, carried the body into the store, explaining that he had found it. "See, this was in her mouth," he said, exhibiting a gag on which the child choked to death. At this point the witnesses appeared and Smith was arrested.

Boy Impaled on Stick.

La Crosse, Wis., July 9.—A stick at most a foot long was driven through the mouth of George Castle, aged six, and came out the back of his neck when he fell from a bicycle. The boy was fatally injured, attending physicians say.

Painless Death.

On one occasion a well-known public man described the act of dying as "a great adventure that must be much more interesting than setting out for the north pole." While few will agree with him, it is a great thing to know that science has robbed death of its terrors, and has taught us that no matter how much a dying person may appear to be suffering, he or she, immediately before death, can feel no pain whatever.

Potash in Pompeii.

Dr. Kleiber, Swiss scientist, has discovered that the thick layer of ashes covering the ruins of Herculaneum and Pompeii contains large quantities of potash and argil, a valuable agricultural fertilizer. He believes the region around Vesuvius is rich in potash. It is proposed that the Italian government shall exploit the volcanic deposits commercially.

Worthy Teacher Is Trouble.

Some people, because of their own happiness, feel moved to help others. But more people, out of their sorrows, learn to minister to those who need love and kindness. There is no enlarger and deepener of the life like that which is not for the guest, Trouble, who carries rich gifts under his black cloak.—Great Thoughts.

Clears Complexion—Removes Skin Blemishes

Why go through life embarrassed and disfigured with pimples, eruptions, blackheads, red rough skin, or suffering the tortures of Eczema, Itch, tetter, salt rheum. Just ask your druggist for Dr. Hobson's Eczema Ointment. Follow the simple suggestions and your skin worries are over. Mild, soothing, effective. Excellent for babies and delicate, tender skin. Stops chapping. Always helps. Relief or money back. 50c at your druggist. H. P. Dunn.—

The political parties that I would call great, are those which cling more to principles than to consequences; to general, and not to special cases; to ideas, and not to men.—such parties are usually distinguished by a nobler character, more generous passions, more genuine convictions, and a more bold and open conduct than others.—De Tocqueville.

His Worry.

"Clarence," said the American helpess hesitatingly, "I think that you should be told at once how my father made his money. Our business men in this country have methods which to one of your pure soul, whose motto is 'Noblesse oblige,' cannot but—'Cease, Mamie, cease,' said the young lord reassuringly, 'tell me no more. However he made his millions I can forgive, for your sake. But—er—has he still got them all right?'"

Very Old Custom.

The custom of saying "God bless you" to a person when he sneezes originated among the ancients, who, fearing danger from it, after sneezing made a short prayer to the gods, as "Jupiter help me." The custom is mentioned by Homer, the Jewish rabbis and others. Polydore Vergil says it took its rise at the time of the plague in 558, when the infected fell dead, sneezing, though apparently in health.

Sad Regrets.

She—"If I'd known before we were married that you swore so, I'd never have accepted you." He—"Confound it! That's what comes of being a hypocrite."

Remarkable Pedal Stop.

The lowest pedal stop in existence has just been installed in a Lowell (Mass.) church. It is 128 feet long and gives a note technically known as CCCCCC, vibrating only four times a second. The sound is so soft that it can hardly be heard, and yet so strong that it prevails against the heaviest chords.

Why He Remembered.

"I don't believe any man remembers the first dollar he ever earned, though a great many claim that they do." "I do." "Now, what was there about it that fixed it so firmly in your memory?" "Because all I got was a nickel."—Houston Post.

Painless Death.
On one occasion a well-known pub-lic man described the act of dying as "a great adventure that must be much more interesting than setting out for the north pole." While few will agree with him, it is a great thing to know that science has robbed death of its terrors, and has taught us that no matter how much a dying person may appear to be suffering, he or she, im-mediately before death, can feel no pain whatever.

Potash in Pompeli.
Dr. Kleiber, Swiss scientist, has dis-covered that the thick layer of ashes covering the ruins of Herculaneum and Pompeli contains large quantities of potash and argil, a valuable agri-cultural fertilizer. He believes the region around Vesuvius is rich in pot-ash. It is proposed that the Italian government shall exploit the volcanic deposits commercially.

Worthy Teacher Is Trouble.
Some people, because of their own happiness, feel moved to help others. But more people, out of their sorrows, learn to minister to those who need love and kindness. There is no en-larger and deepener of the life like that unwished for guest, Trouble, who carries rich gifts under his black cloak.—Great Thoughts.

Clears Complexion—Removes Skin Blemishes
Why go through life embarrassed and disfigured with pimples, eruptions, blackheads, red rough skin, or suffering the tortures of Eczema, iten, tetter, salt rheum. Just ask your druggist for Dr. Hobson's Eczema Ointment. Follow the simple sug-gestions and your skin worries are over. Mild, soothing, effective. Ex-celent for babies and delicate, tend-er skin. Stops chapping. Always helps. Relief or money back. 50c at your druggist. H. P. Dunn.—

The political parties that I would call great, are those which cling more to principles than to consequences; to general, and not to special cases; to ideas, and not to men.—such par-ties are usually distinguished by a nobler character, more generous pas-sions, more genuine convictions, and a more bold and open conduct than others.—De Tocqueville.

His Worry.
"Clarence," said the American help-ess hesitatingly, "I think that you should be told at once how my father made his money. Our business men in this country have methods which to one of your pure soul, whose motto is "Noblesse oblige," cannot but—" "Cease, Mamie, cease," said the young lord reassuringly, "tell me no more. However he made his millions I can forgive, for your sake. But—or—has he still got them all right?"

Very Old Custom.
The custom of saying "God bless you" to a person when he sneezes originated among the ancients, who, fearing danger from it, after sneezing made a short prayer to the gods, as "Jupiter help me." The custom is mentioned by Homer, the Jewish rab-bis and others. Polydore Vergil says it took its rise at the time of the plague in 558, when the infected fell dead, sneezing, though apparently in health.

Sad Regrets.
She—"If I'd known before we were married that you swore so, I'd never have accepted you." He—"Confound it! That's what comes of being a hypocrite."

Remarkable Pedal Stop.
The lowest pedal stop in existence has just been installed in a Lowell (Mass.) church. It is 128 feet long, and gives a note technically known as CCCCCC, vibrating only four times a second. The sound is so soft that it can hardly be heard, and yet so strong that it prevails against the heaviest chords.

Why He Remembered.
"I don't believe any man remembers the first dollar he ever earned, though a great many claim that they do." "I do." "Now, what was there about it that fixed it so firmly in your mem-ory?" "Because all I got was a nickel."—Houston Post

Curtain.
Gilbert K. Chesterton, the English satirist, was an extraordinarily stout man. An English newspaper, describ-ing a meeting at which Mr. Chesterton was the principal speaker, said: "Mr. Chesterton then mounted the platform, and the chairman was seen no more for half an hour."

Eyes of Men of Genius.
Audubon, as became a naturalist, had "hawk-like eyes, that flashed like a searchlight and were ever on the alert for each movement of animated nature." The duke of Wellington also had, it is said, blue hawk's eyes gleam-ing with military genius.

Method.
Every great man exhibits the talent of organization or construction, whether it be in a poem, a philosophi-cal system, a policy, or a strategy. And without method there is no or-ganization nor construction.—Bulwer.

Murder of Mrs. Eli Vallincourt by Her Husband one of Most Grossest Tragedies

HUSBAND ATTEMPTS SUICIDE
Found in Woods North of Crosby after an All Day Man Hunt by Sheriff and Citizens

Crosby, Minn., July 9.—With her head almost completely severed from her body, Mrs. Eli Vallincourt, slashed by a razor in the hands of her murderous husband, cried "Oh Rosie" for her oldest daughter, and with blood spattering the bed, floor, walls of her room, leaped from her head, walked out the door into the hallway a distance of 15 feet and then fell over a stand on which were flower pots and crashed to the floor dead.

The husband, crazed with drink, who had committed this murder at the family boarding house in Crosby at 3 o'clock Wednesday morning, picked up the razor with which he had committed the deed, ran the length of the hall for the stairway at the front of the house and there encountered the oldest daughter.

"What have you done?" she cried. Vallincourt gave no answer. His eyes, says the girl, were almost popping from his head and the sight of his face scared her.

Vallincourt sprang past her and as he ran down the steps she caught a glimpse of the razor.

He ran to the room of her mother and with other members of the family they beheld the awful sight in the hall. Viewed at the morgue by the writer it appears that Vallincourt had saved with his razor and literally attempted to sever the woman's head from her body. At the morgue she lay just as she had been in her bed, clad in a blood soaked night gown under which she wore a small black skirt and stockings rolled down to her ankles. At the back of her neck was a strip of flesh two inches long which was all that held the head to the body. Her head had not been slashed off under the chin but at the very base of the neck near the collar bone.

Sheriff F. J. Reid, Deputy Sheriff Claus A. Theorin, and County Attorney G. S. Swanson of Brainerd, were immediately notified and rushed to the scene of the crime in an automobile. In automobiles a posse of citizens scoured the town and the district north of Crosby. All day the search was kept up.

Bloodhounds were telegraphed for and Sheriff Meining, of St. Louis county, called in his dogs from a chase near Virginia and loaned them to Crow Wing county.

After a man hunt lasting all day some one caught sight of the murderer near the Armour No. 2 mine. His razor was found there.

The fire bell at Crosby was rung and the entire town joined in the search. Neils Boulger, of Cloquet, brother of the murdered woman, got a saddle horse at the Newman livery barn and joined in the hunt at 7 o'clock in the evening. Riding through the brush and woods he was the first to come on the murderer at about 8 o'clock in the evening.

Vallincourt had attempted suicide with the same razor with which he had killed his wife. There was a jagged wound in his neck from which he had been bleeding all day. He was taken to a Crosby hospital and his wound stitched up. Attendants were placed with Vallincourt to guard him night and day. Doctors say he will be unable to leave the hospital for two weeks.

On finding the murderer Sheriff Meining was promptly notified and the bloodhounds, enroute to Crosby, were stopped at Carlton and returned to Duluth. Had they been used, it is believed it would have been the first time in the history of Crow Wing county that dogs were pressed into service to trace a criminal.

The remains of Mrs. Vallincourt will be sent to Cloquet for burial. At Crosby Wednesday were all her relatives including her mother, Mrs. A. Dube, her brother-in-law and twin sister, Mr. and Mrs. Neils Boulger and a brother, Homer Dube, all of Cloquet.

Rose Vallincourt, aged 20, is the oldest child of the family of seven. The girl was a favorite of the dead woman and her last cry on earth was for help from Rosie. The other children are Daisy 18, Phillip 17, Eliza 15, Sophie 14, Paul 12, Mabel 8.

In a statement made by Rose, she says her father had been quarreling with her mother during the evening. The talk was loud between 2:30 and 3 in the morning. There was no light in the bed room of her parents, but a light burned in the hall.

Rosie was nursing Hattie Gannon, a sick woman, one who had attempted suicide at the boarding house about a week ago by taking bichloride.

As near as the daughter can determine, her mother was killed at 3 o'clock in the morning. She and a boarder named William Pepin were the first to find the body.

made up again. A month ago Mrs. Vallincourt was operated on. Vallincourt is about 49 years old and the dead woman was 37.

Vallincourt was away a week and returned home July 3 and had been quarreling since then. He was about five feet four inches in height and weighed about 150 pounds, was bald headed, wore a mustache and had gray hair.

The inquest will be held today. The body, at present at the morgue of Albert Humble, will be shipped to Cloquet.

BLINDPIGGER IN THE TOILS

Ludwig Nelson Arrested at Crosby Wednesday Morning and Pleads Guilty to Charge

HE IS FINED \$50 AND COSTS
Asserted that Vallincourt Bought Beer There in Company with Two Other Men

Crosby, Minn., July 9.—Ludwig Nelson, charged with selling liquor without a license, was arrested in Crosby early Wednesday morning. He first entered a plea of not guilty and later changed it to guilty.

County Attorney G. S. Swanson stated there was evidence tending to show that Vallincourt and two other men bought beer at the place.

There was also a story that Mrs. Vallincourt had followed her husband and when he returned she had accused him of drinking.

Nelson was taken before Municipal Judge A. W. Uhl and upon entering his plea of guilty to keeping an unlicensed drinking place was fined \$50 and costs.

VERNDAL HERE SUNDAY

Fast Team to the West of Brainerd to Play at Koering Grounds on Sunday Afternoon

Verndale, said to be one of the fastest amateur teams to the west of Brainerd, has agreed to play Brainerd at the Koering grounds next Sunday afternoon at 3:30.

The Verndale nine has a long string of victories to its credit and will put up a most satisfying style of play and some even insist that Brainerd will have to play topnotch ball if it wants to carry home the bacon.

Brainerd this season has been playing the kind of ball which appeals to every fan. They are good on the offense and the defensive sides. One thing that the old timers particularly like to see is that every batter steams down to first with the throttle wide open. There is no half-hearted running, or looking around to see if a fielder got the ball.

In base stealing Brainerd is improving. The hit and run play is used and the double squeeze on bases. Errors of the opposing team are taken full advantage of. So far this season, Brainerd has not pulled off a single bone head play. They are using their brains as well as their feet and hands.

Young Benda is making good at shortstop. Victor has evolved a change of pace that has them guessing. Happy Alderman does his best pitching with three men on bases.

Cook handles first base to perfection. Larson as usual is one of the best fielding second basemen in this section. Templeton plays his third base better every day. The outfield lets nothing get through its mitts. Sheffield and Bush seem to take kindly to every pitcher they face. Erickson can foul enough balls to make a pitcher get cramps in his pitching wing. Gaven is good at the receiving end and his throws to first and second make players hug those bases.

It's some machine all right and it's working like greased lightning under the direction of the Chief Engineer D. A. Peterson.

Many a Brainerd man would rather see Brainerd play than the best league team in the country, with the possible exception, of course, of the Athletics and Bush on the mound.

Value of Onions as Diet.

Persons troubled with distressing eruptions of the skin may give their skin a new lease of life by having onions frequently figuring in the diet. Furthermore, disease germs cannot live in the presence of onions, nor can disease germs have ill effects on persons whose blood is charged with onion juice.

A motion was made and seconded and carried that the appointments be confirmed.

After the resignation of President Sanborn had been accepted, the balloting commenced for his successor. The nominations made included Edward Crust, who declined, and Rev. Sheridan. There being no other nominations, the nominations were closed and the secretary instructed to cast the unanimous vote for Rev. Sheridan, which was done and he was declared elected.

Four nominations were made to fill the vacancy in the committee of committees caused by the election of Rev. Sheridan. These included Henry

I. Cohen who polled 4 votes, Erick Kronberg 5 votes, D. E. Whitney 12 votes and J. W. Koop 5 votes. Mr. Whitney was declared elected. On motion the unanimous vote was cast for Mr. Whitney.

Regular and special meetings are to be hereafter announced by postal card notices to the members.

Henry I. Cohen spoke for the committee appointed to examine into the standing of the Brainerd Sash & Door company. President Zeta, of the company, also spoke. The committee was granted further time.

Attorney Charles A. Russell, in behalf of the committee on by-laws, turned over the complete details regarding the incorporation and asked that the committee be discharged and his request was granted.

A. L. Hoffman, in behalf of the finance committee, asked that the club as a whole take up the matter of financial assistance to the post office clerks convention. A donation of \$25 was made.

Judge T. C. Blewitt suggested that Attorney Russell be paid for his services on account of the incorporation of the club and it was referred to the advisory board.

A. L. Hoffman brought up the matter of the condition of the railroad crossing on North Sixth street and its not being planked the full width of the streets and asked that the proper committee take it up. Mr. Hoffman also spoke on the Oak street railway crossing and its being blocked with freight cars, making it a dangerous crossing for automobiles.

On motion of Attorney Russell and A. L. Hoffman the matter of the physical condition of the crossings was referred to the committee on streets and boulevards and the matter of its remedy to the committee on railroads, to act jointly.

The president announced a meeting of the advisory board for Friday evening, July 10, at 8 o'clock in the club rooms. On motion the club adjourned until Wednesday, July 22, the regular meeting night.

GEORGE MOODY TELLS ONE

Goes 50 Miles Into Wilderness North of International Falls and Makes Discovery

Roosevelt may discover rivers in South America, but George W. Moody, the efficient court reporter of Judge W. S. McClenahan, has made one which beats that meritorious one.

As he skillfully rolled a cigarette near Houghton's jewelry store, Mr. Moody spoke of his voyage of discovery when he fearlessly took a steamboat, the Koochiching, at International Falls and sailed among a thousand islands, at least Mr. Moody counted up to a thousand and then quit. Somewhere in this wilderness of islands dotting an inland sea he was set off near Kettle Falls and with a guide and boat reached the cabin of a homesteader.

There was no trail. There was so much brush and forest that one would be hopelessly lost if he strayed 50 feet from the primitive cabin.

Mr. Moody sat out on the little porch, shooed away a few mosquitoes and settled down for some moments of calm thought free from the maddening influences of this world.

"I am far from civilization," mused Mr. Moody. "No telephone or typewriter to rattle in my ears, no paper with its scare heads, just peace and solitude."

Then he glanced on the next chair and there lay freshly printed, three copies of the Brainerd Dispatch.

"Well, if this doesn't beat all," said George, and he read the papers, ads and all.

COMMOTION AT LOERCH

Foreman F. B. Berglund Says it Started when He Discharged Six Men of the Gang

Foreman F. B. Berglund and wife, his camp cook, cookie and another man arrived from Loerch yesterday and Mr. Berglund says the commotion which agitated Loerch for some time Wednesday morning started when he discharged six men of his railway gang. Berglund is putting in the track from Loerch to the Wilcox mine at Woodrow.

The six who had been paid off stayed around the camp and when they were asked to pay for their breakfast next morning the row started.

Berglund rushed his teamster, Frank Buck, to the Wilcox mine and he telephoned to Brainerd for help. The boarding house was made the center of attack by the Finns. Oscar Fredrickson was struck in the stomach with a flying rock and doubled up. For an hour or more the foreman and his company were bombarded.

The Brainerd relief column of eleven men secured autos and rushed to Loerch, stopped the fight and came back with four prisoners and landed them in the jail in just one hour, and that is going some.

In municipal court the four Finns from Loerch were charged with assault in the third degree. They pleaded guilty and were fined \$10 each and costs. Sentence was suspended.

HEAD CUT OFF, WALKS 15 FEET

Murder of Mrs. E. V. Vallincourt by Her Husband one of Most Grossest Tragedies

HUSBAND ATTEMPTS SUICIDE

Found in Woods North of Crosby after an All Day Man Hunt by Sheriff and Citizens

Crosby, Minn., July 9.—With her head almost completely severed from her body, Mrs. E. V. Vallincourt, slashed by a razor in the hands of her murderous husband, cried "Oh Rosie" for her oldest daughter, and with blood spattering the bed, floor, walls of her room, leaped from her bed, walked out the door into the hallway a distance of 15 feet and then fell over a stand on which were flower pots and crashed to the floor dead.

The husband, crazed with drink, who had committed this murder at the family boarding house in Crosby at 3 o'clock Wednesday morning, picked up the razor with which he had committed the deed, ran the length of the hall for the stairway at the front of the house and there encountered the oldest daughter.

"What have you done?" she cried. Vallincourt gave no answer. His eyes, says the girl, were almost popping from his head and the sight of his face scared her.

Vallincourt sprang past her and as he ran down the steps she caught a glimpse of the razor.

He ran to the room of her mother and with other members of the family they beheld the awful sight in the hall. Viewed at the morgue by the writer it appears that Vallincourt had sawed with his razor and literally attempted to sever the woman's head from her body. At the morgue she lay just as she had been in her bed, clad in a blood soaked night gown under which she wore a small black skirt and stockings rolled down to her ankles. At the back of her neck was a strip of flesh two inches long which was all that held the head to the body. Her head had not been slashed off under the chin but at the very base of the neck near the collar bone.

Sheriff F. J. Reid, Deputy Sheriff Claus A. Theorin, and County Attorney G. S. Swanson of Brainerd, were immediately notified and rushed to the scene of the crime in an automobile. In automobiles a posse of citizens scoured the town and the district north of Crosby. All day the search was kept up.

Bloodhounds were telegraphed for and Sheriff Meining, of St. Louis county, called in his dogs from a chase near Virginia and loaned them to Crow Wing county.

After a man hunt lasting all day some one caught sight of the murderer near the Armour No. 2 mine. His razor was found there.

The fire bell at Crosby was rung and the entire town joined in the search. Nels Boulger, of Cloquet, brother of the murdered woman, got a saddle horse at the Newman livery barn and joined in the hunt at 7 o'clock in the evening. Riding through the brush and woods he was the first to come on the murderer at about 8 o'clock in the evening.

Vallincourt had attempted suicide with the same razor with which he had killed his wife. There was a jagged wound in his neck from which he had been bleeding all day. He was taken to a Crosby hospital and his wound stitched up. Attendants were placed with Vallincourt to guard him night and day. Doctors say he will be unable to leave the hospital for two weeks.

On finding the murderer Sheriff Meining was promptly notified and the bloodhounds, enroute to Crosby, were stopped at Carlton and returned to Duluth. Had they been used, it is believed it would have been the first time in the history of Crow Wing county that dogs were pressed into service to trace a criminal.

The remains of Mrs. Vallincourt will be sent to Cloquet for burial. At Crosby Wednesday were all her relatives including her mother, Mrs. A. Dube, her brother-in-law and twin sister, Mr. and Mrs. Nels Boulger, and a brother, Homer Dube, all of Cloquet.

Rose Vallincourt, aged 20, is the oldest child of the family of seven. The girl was a favorite of the dead woman and her last cry on earth was for her, from Rosie. The other children are Daisy 18, Phillip 17, Eliza 15, Sophie 14, Paul 12, Mabel 8.

In a statement made by Rose, she says her father had been quarreling with her mother during the evening. The talk was loud between 2:30 and 3 in the morning. There was no light in the bed room of her parents, but a light burned in the hall.

Rosie was nursing Hattie Gannon, a sick woman, one who had attempted suicide at the boarding house about a week ago by taking bichloride.

As near as the daughter can determine, her mother was killed at 3 o'clock in the morning. She and a boarder named William Pepin were the first to find the body.

The family had lived in Cloquet for 20 years or more and came to Crosby three months ago. Her parents sometimes quarreled and her mother had not Cloquet with the intention of earning her own living. Vallincourt followed and they apparently

made up again. A month ago Mrs. Vallincourt was operated on. Vallincourt is about 49 years old and the dead woman was 37.

Vallincourt was away a week and returned home July 3 and had been quarreling since then. He was about five feet four inches in height and weighed about 150 pounds, was bald headed, wore a mustache and had gray hair.

The inquest will be held today. The body, at present at the morgue of Albert Humble, will be shipped to Cloquet.

BLINDPIGGER IN THE TOILS

Ludwig Nelson Arrested at Crosby Wednesday Morning and Pleads Guilty to Charge

HE IS FINED \$50 AND COSTS

Asserted that Vallincourt Bought Beer There in Company with Two Other Men

Crosby, Minn., July 9.—Ludwig Nelson, charged with selling liquor without a license, was arrested in Crosby early Wednesday morning. He first entered a plea of not guilty and later changed it to guilty.

County Attorney G. S. Swanson stated there was evidence tending to show that Vallincourt and two other men bought beer at the place.

There was also a story that Mrs. Vallincourt had followed her husband and when he returned she had accused him of drinking.

Nelson was taken before Municipal Judge A. W. Uhl and upon entering his plea of guilty to keeping an unlicensed drinking place was fined \$50 and costs.

VERDALE HERE SUNDAY

Fast Team to the West of Brainerd to Play at Koering Grounds on Sunday Afternoon

Verdale, said to be one of the fastest amateur teams to the west of Brainerd, has agreed to play Brainerd at the Koering grounds next Sunday afternoon at 3:30.

The Verdale nine has a long string of victories to its credit and will put up a most satisfying style of play and some even insist that Brainerd will have to play topnotch ball if it wants to carry home the bacon.

Brainerd this season has been playing the kind of ball which appeals to every fan. They are good on the offense and the defensive sides. One thing that the old timers particularly like to see is that every batter steams down to first with the throttle wide open. There is no half-hearted running, or looking around to see if a fielder got the ball.

In base stealing Brainerd is improving. The hit and run play is used and the double squeeze on bases. Errors of the opposing team are taken full advantage of. So far this season, Brainerd has not pulled off a single home head play. They are using their brains as well as their feet and hands.

Young Benda is making good at shortstop. Victor has evolved a change of pace that has them guessing. Happy Alderman does his best pitching with three men on bases.

Cook handles first base to perfection. Larson as usual is one of the best fielding second basemen in this section. Templeton plays his third base better every day. The outfield lets nothing gets through its mitts. Sheffield and Bush seem to take kindly to every pitcher they face. Erickson can foul enough balls to make a pitcher get cramps in his pitching wing. Gaven is good at the receiving end and his throws to first and second make players hug those bases.

It's some machine all right and it's working like greased lightning under the direction of the Chief Engineer D. A. Peterson.

Many a Brainerd man would rather see Brainerd play than the best league team in the country, with the possible exception, of course, of the Athletics and Bush on the mound.

Public Affairs—Carl Zapffe, N. H. Ingersoll, W. C. Cobb, P. W. Donovan, G. D. LaBar and C. M. Patek.

A motion was made and seconded and carried that the appointments be confirmed.

After the resignation of President Sanborn had been accepted, the balloting commenced for his successor. The nominations made included Edward Crust, who declined, and Rev. Sheridan. There being no other nominations, the nominations were closed and the secretary instructed to cast the unanimous vote for Rev. Sheridan, which was done and he was declared elected.

Four nominations were made to fill the vacancy in the committee of committees caused by the election of Rev. Sheridan. These included Henry

I. Cohen who polled 4 votes, Erick Kronberg 3 votes, D. E. Whitney 12 votes and J. W. Koop 5 votes. Mr. Whitney was declared elected. On motion the unanimous vote was cast for Mr. Whitney.

Regular and special meetings are to be hereafter announced by postal card notices to the members.

Henry I. Cohen spoke for the committee appointed to examine into the standing of the Brainerd Sash & Door company. President Zeta, of the company, also spoke. The committee was granted further time.

Attorney Charles A. Russell, in behalf of the committee on by-laws, turned over the complete details regarding the incorporation and asked that the committee be discharged and his request was granted.

A. L. Hoffman, in behalf of the finance committee, asked that the club as a whole take up the matter of financial assistance to the post office clerks convention. A donation of \$25 was made.

Judge T. C. Blewitt suggested that Attorney Russell be paid for his services on account of the incorporation of the club and it was referred to the advisory board.

A. L. Hoffman brought up the matter of the condition of the railroad crossing on North Sixth street and its not being planked the full width of the streets and asked that the proper committee take it up. Mr. Hoffman also spoke on the Oak street railway crossing and its being blocked with freight cars, making it a dangerous crossing for automobiles.

On motion of Attorney Russell and A. L. Hoffman the matter of the physical condition of the crossings was referred to the committee on streets and boulevards and the matter of its remedy to the committee on railroads, to act jointly.

The president announced a meeting of the advisory board for Friday evening, July 10, at 8 o'clock in the club rooms. On motion the club adjourned until Wednesday, July 22, the regular meeting night.

Threshermen! Buy Your Coal Now!
\$1.60 Per Ton During July Only

Send your order in now. Take advantage of this low July price. Don't wait till it's too late. The price in September will be \$2.00 per ton. This saving means money in the bank for you. Remember, you deal directly with the mine owners. No fat profits for middlemen from your pocket.

Tecumseh coal is guaranteed to prove out 13,400 B. T. U.'s per coal pound with only 9 per cent ash and 9 per cent moisture. Will any one else guarantee you that? Can any one else sell you coal at this low price?

Tecumseh Coal

Means Increased Threshing Profits For You!

You get more power per dollar by using Tecumseh. You increase your net threshing profits because you pay out less for your coal. Think of it! \$1.60 per ton! For the coal that is being used by large railroads and manufacturing companies and hundreds of farmers, threshermen and coal consumers throughout the middle west. Your saving represents the profits the wholesaler and jobber would make. Because you buy direct from the mines—from the mine owner themselves.

If you can't use a carload yourself, split it with a neighbor or two. Their saving will make them glad to join with you in ordering.

Daily Good.

We are too apt to underrate the moral quality of a man's regular vocation, his daily task, his business to look somewhere apart from this for his opportunity for achieving character and doing good. But there is nothing else that is so determinative of a man's character, nothing else that so furnishes hands for his beneficence and feet to run his errands of good will.—John W. Chadwick.

THAT WAS A GOOD TIP
YOU GAVE MY BOY

WELL JUDGE, YOU GAVE
ME A GOOD TIP WHEN
YOU PUT ME WISE TO
THE REAL TOBACCO CHEW

THE STABLE BOY FEELS THAT ONE GOOD
TURN DESERVES ANOTHER

IT'S a glad day for a tobacco chewer when he finds the Real Tobacco Chew. "Right-Cut" is made of rich, mellow, full-bodied tobacco. Seasoned and sweetened just enough.

Knowing how much it means to his comfort a man takes pleasure in telling his friends about it, too.

You don't have to grind it away. The taste lasts.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

If your dealer does not sell it, send us 10c, in stamps for a pouch of "Right-Cut" Chewing Tobacco.

CERTIFICATE OF INCORPORATION

OF THE STAR IRON MINING COMPANY

Know all men by these presents: That we, the undersigned, have agreed to and do hereby associate ourselves together in a corporation under Chapter 58 of the General Statutes of Minnesota for the year 1913, and to that end we do hereby execute the following certificate of incorporation, to-wit:

First

The name of this corporation shall be The Star Iron Mining Company, and its principal place of business shall be the Village of Ironton, Crow Wing county, Minnesota.

Second

The general nature of its business shall be to purchase, own, hold, sell, option, lease, mortgage, convey, manage, improve, operate and deal in mineral and other lands, to explore and develop mineral lands, to mine, smelt, reduce, refine, or work iron or manganese ore or other ore or metals; to work coal mines or stone quarries and to market their products; to manufacture iron, steel, copper or other metals; to buy, sell and otherwise deal in timber and timber products; to buy, sell, own, hold and transfer and otherwise invest and manage stocks, bonds and shares of other corporations; to borrow money and to secure, give and issue all forms of commercial paper, and written evidence of indebtedness; and to do any other acts and to transact all other such business as will properly be incident to and necessarily connected with the lines of business above specified.

Third

Said corporation shall commence on the Eighth day of July A. D. 1914, and continue for a period of thirty years.

Fourth

The names and places of residence of the incorporators are as follows: Ben P. Brown, Duluth, Minnesota; M. A. Keelley, Duluth, Minnesota; and E. A. Lamb, Deerwood, Minnesota.

Fifth

The management of the affairs of this corporation shall be vested in a board of five directors, who shall be elected by the stockholders from their number at the regular annual meeting of such stockholders to be held on the second Tuesday in October in each year at the principal office of said corporation; said directors shall hold office for one year and until their successors are elected and have qualified.

Sixth

The Board of Directors shall adopt all by-laws and regulations necessary to the management of the business of the corporation, which by-laws shall remain in full force and effect until amended or repealed by a majority of the outstanding stock at any regular meeting or special meeting called for that purpose. The by-laws shall fix the time and place for meetings of the board of directors, and any director may be represented and vote by written proxy.

The amount of the capital stock of said corporation shall be Fifty Thousand Dollars (\$50,000.00) to be paid in cash, property or services as the board of directors shall determine from time to time and shall be divided into fifty thousand shares of the par value of One Dollar each.

Seventh

The highest amount of indebtedness or liability, to which this corporation shall at any time be subject is Ten Thousand Dollars.

Eighth

The officers of this corporation shall be a President, Vice President, Secretary and Treasurer, and such other officers as may be provided in the by-laws, who shall be elected by the board of directors, as soon as may be after the annual meeting. The following persons shall serve as officers of said corporation until the annual meeting and until their successors are elected and have qualified: President, W. W. Fagan, Vice President, Ben P. Brown, Secretary, E. A. Lamb; Treasurer, M. A. Keelley.

In testimony whereof we have hereunto set our hands this second day of July A. D. 1914.

In the Darkest Hour.

When weary life, breathing reluctant breath, hath no hope sweeter than the hope of death; then the best counsel and the best relief to cheer the spirit or to cheat the grief, the only calm, the only comfort heard, comes in the music of a woman's word.—Edwin Arnold.

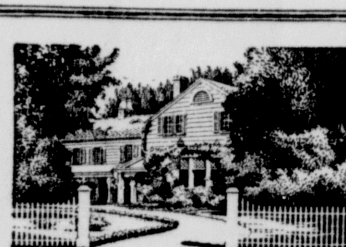

No Vacuums in the Household.

"I would like to show you our new vacuum cleaner," began the agent when the door opened. "We ain't got no vacuums to clean," snapped the hard-faced woman as she slammed the door.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by J. C. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: J. C. Cheney & Co., Toledo, O. Sold by Druggists, 15c. Each bottle 10c. Only 10c for constipation.

GOOD SUGGESTION TO BRAINERD PEOPLE

It is surprising the amount of old, 'cool' matter the simple mixture of buckthorn bark, glycerine, etc., known as Alder-I-ca, drains from the system. This remedy became famous by curing appendicitis and acts on BOTH the upper and lower bowel so thoroughly that ONE DOSE relieves your stomach almost IMMEDIATELY. We are mighty glad we're Alder-I-ca agents for Brainerd. Johnson's Pharmacy.

Insects Worth Protecting.
Among the common insects of the household are two which are friends of the housewife. If she realized this fact, she would protect them, instead of taking every opportunity to kill them. One of them is the spider, and the other is the so-called "centipede," or "earwig." But the latter is neither an earwig (which is quite a different kind of creature), nor yet a centipede. It is a "myriapod," and has fifteen pairs of legs. Like the spider, it is predaceous, attacking and devouring flies and other "undesirables."

Education Invaluable.
Education is a companion that no misfortune can depress, no climate destroy, no enemy alienate, no despotism enslave; at home a friend, abroad an introduction, in society an ornament, in solitude a solace. It chastens vice, guides virtue, and gives at once grace and government to genius. Without it, what is man? A splendid slave, a reasoning savage, vacillating between the dignity of an intelligence derived from God, and the degradation of passions participated by brutes.—Coleridge.

Pains of Dressing.
"She dresses with great pains." "Yes, her shoes pinch, her corset is too tight, and she frequently scorches herself with a curling iron."

The Dressmakers.
Gibbs—"I'd really like to know the secret of social success." Dibbs—"My boy, there are many secrets of social success, but one of the most important is to be able to pretend you are having a good time when you're not."

A. TROMMAL,
Register of Deeds.

In the Darkest Hour.

When weary life, breathing reluctant breath, hath no hope sweeter than the hope of death; then the best counsel and the best relief to cheer the spirit or to cheat the grief, the only calm, the only comfort heard, comes in the music of a woman's word.—Edwin Arnold.

No Vacuums in the Household.
"I would like to show you our new vacuum cleaner," began the agent when the door opened. "We ain't got no vacuums to clean," snapped the hard-faced woman as she slammed the door.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a constitutional disease, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by J. C. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure, send for circulars and testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by Druggists. Take Hall's Catarrh Pills for constipation.

GOOD SUGGESTION TO BRAINERD PEOPLE

It is surprising the amount of old, foul matter the simple mixture of buckthorn bark, glycerine, etc., known as Alder-I-ca, drains from the system. This remedy became famous by curing appendicitis and acts on BOTH the upper and lower bowel so thoroughly that ONE DOSE relieves sour stomach almost IMMEDIATELY. We are mighty glad we are the agents for Alder-I-ca. Johnson's Pharmacy.

Take your home for instance.

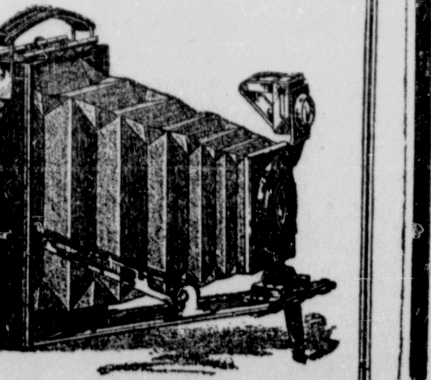

Of course you would like pictures of that, inside and out. Then step into our store and let us show you how easily you can make all the pictures you want of everything you care about, with a

Insects Worth Protecting.
Among the common insects of the household are two which are friends of the housewife. If she realized this fact, she would protect them, instead of taking every opportunity to kill them. One of them is the spider, and the other is the so-called "centipede," or "earwig." But the latter is neither an earwig (which is quite a different kind of creature), nor yet a centipede. It is a "myriapod," and has fifteen pairs of legs. Like the spider, it is predaceous, attacking and devouring flies and other "undesirables."

Education Invaluable.
Education is a companion that no misfortune can depress, no climate destroy, no enemy alienate, no despotism enslave; at home a friend, abroad an introduction, in society an ornament, in solitude a solace. It chastens vice, guides virtue, and gives at once grace and government to genius. Without it, what is man? A splendid slave, a reasoning savage, vacillating between the dignity of an intelligence derived from God, and the degradation of passions participated by brutes.—Coleridge.

Pains of Dressing.
"She dresses with great pains." "Yes, her shoes pinch, her corset is too tight and she frequently scorches herself with a curling iron."

The Dissemblers.
Gibbs—"I'd really like to know the secret of social success." Dibbs—"My boy, there are many secrets of social success, but one of the most important is to be able to pretend you are having a good time when you're not."
